AMR

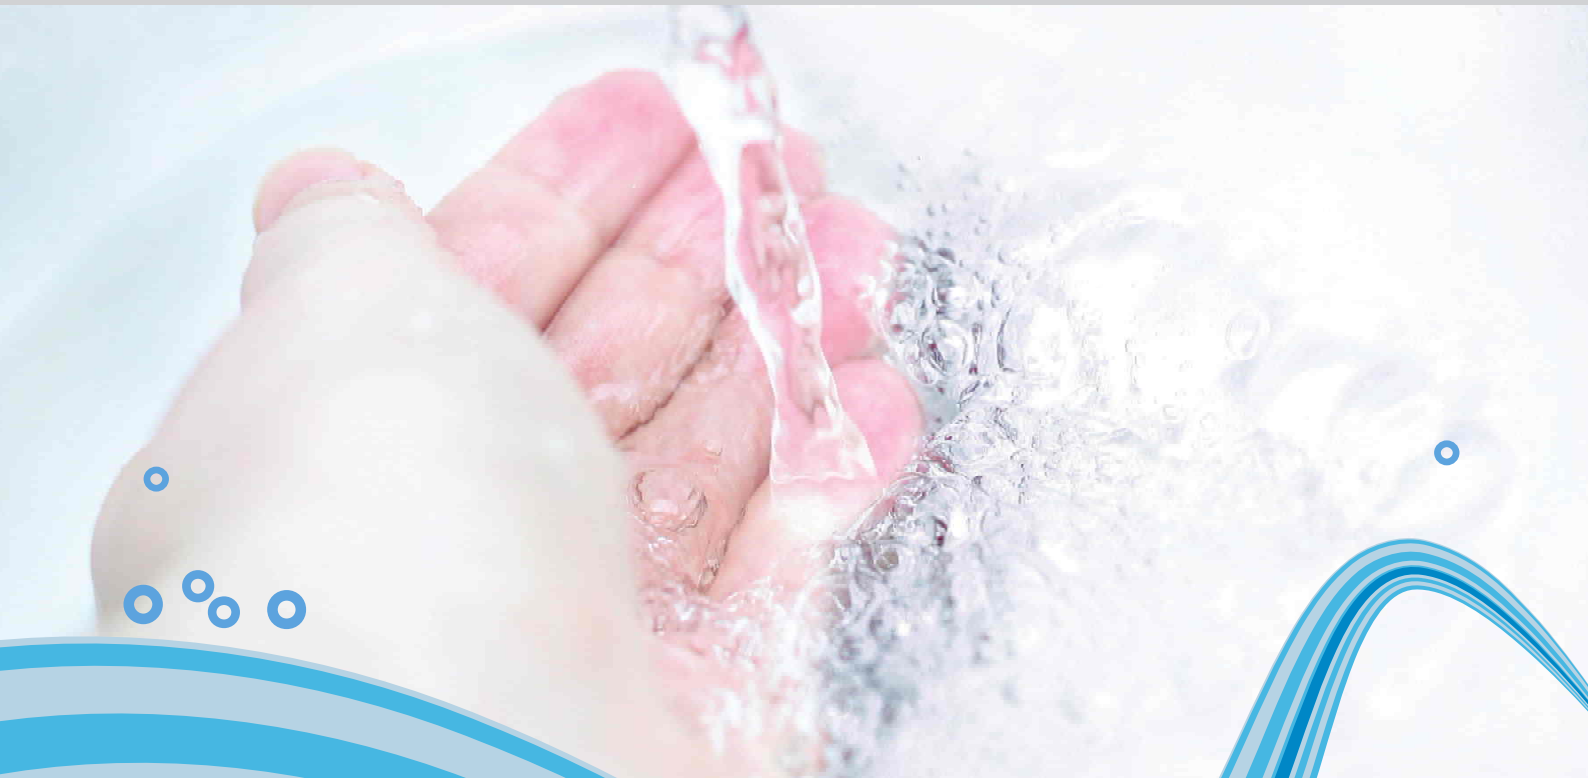

AUTOMATIC METER READING

AMR upgrade for the Aqualoc Water Demand Management System with a full range of metering applications.

- ▼ Full AMR capabilities with drive-by (up to 50km/h) and/or GPRS fixed network technology, GPRS mobile technology.
- ▼ Application can be applied to all metering e.g. electrical, gas, bulk, water or any meter application
- ▼ I.C.A.S.A. type approval for 868mhz radio transmission
- ▼ Unidirectional frequency communication capable of reading thousands of meters simultaneously.
- ▼ Can be applied to inductive (optical) read or pulse meter outputs.
- ▼ IP68 - Fully waterproof
- ▼ Software application with graphic analysis, automatic generation of meter alarms, sending via sms/e-mail, visualization of reading via google earth mapping.
- ▼ Software can interface with any billing system
- ▼ 15 year battery life
- ▼ Tampering and leakage detection
- ▼ Data logging capabilities
- ▼ Assists in accurate and timeous billing
